

Taupo DeBretts
STAY - SOAK - SOOTHE - SAVOUR

Environmental Statement

Taupo DeBretts recognises its environmental responsibility and is committed to managing and protecting its environment, people, and water to ensure your children, grandchildren and future generations can visit it and enjoy it too.

Taupo DeBretts will continue to protect and enhance our asset for the future by:

- Ongoing restoration of the unique geothermal and historical features and indigenous character of the Onekeneke Stream and surrounds, while protecting the endangered plant and bird species in the Waipahihi Valley through ongoing enhancement and restoration plans while working in conjunction with the Taupo District Council, Department of Conservation, Wildland Consultants;
- Developing new and improved on-site re-newable geothermal energy resources;
- Continuing to look for new and innovative ways to achieve a sustainable future resulting in an improved environment for our staff and our visitors and visitors to the wider region;
- Ensure we act in accordance with the [Environments Act 1990](#);
- Providing quality, clean, user-friendly facilities and incredible customer service;
- Maintaining the unique character of this iconic holiday destination by continuously improving the visitor experience to increase visitor numbers and become the best Holiday Park in New Zealand;

In keeping with the careful use of the park resources, reducing waste and reducing your carbon footprint, please consider the following enviro-smart tips to help us achieve our environmental objectives:

- Conserve water
- Save energy
- Use park bins & recycling bins

Taupo DeBretts aims to be acknowledged as Taupo Volcanic Zones unique, iconic Green Zone visitor destination. You will leave Taupo DeBretts knowing your support and actions have helped us manage and protect the environment of the Lake Taupo region.
